Risk Warnings

The Shares are aimed at sophisticated, professional and institutional investors. Any decision to invest should be based on the information contained in the prospectus of the Company (any any supplements or addenda thereto) which includes, inter alia, information on certain risks associated with an investment. The price of the Shares may go up or down and an investor may not get back the amount invested. Shares may be priced in US Dollars, Euros, or Sterling, and the value of the investment in other currencies will be affected by exchange rate movements. Investments in Shares which provide a short and/or leveraged exposure are only suitable for sophisticated, professional and institutional investors who understand leveraged and compounded daily returns and are willing to magnify potential losses by comparison to investments which do not incorporate these strategies. Over periods of greater than one day, investments with a short and/or leveraged exposure do not necessarily provide investors with a return equivalent to a return from the unleveraged long or unleveraged short investments multiplied by the relevant leverage factor. The prospectus of the Company may be obtained from www.etfsecurities.com. Please contact ETFs UK at +44 20 7448 4330 or info@etfsecurities.com for more information.
