About ETFs Services USA LLC

ETF Securities USA LLC is a wholly owned subsidiary of ETF Securities Ltd. ETF Securities Ltd is a provider of Exchange Traded Commodities (ETCs) and Exchange Traded Funds (ETFs). ETF Securities is independently owned and is a European market leader in ETCs. The management of ETF Securities created the first physically-backed precious metal product. ETF management also constructed the world's first full ETC platform in 2006, which has listings on various global exchanges.

The ETFs Silver Trust, ETFs Gold Trust, ETFs Platinum Trust and ETFs Palladium Trust are not investment companies registered under the Investment Company Act of 1940 or a commodity pool for purposes of the Commodity Exchange Act. Shares of the Trusts are not subject to the same regulatory requirements as mutual funds. This Material must be accompanied or preceded by the prospectus. These investments are not suitable for all investors.

Risks and Important Considerations

The value of the Shares relates directly to the value of the gold, silver, palladium and platinum held by the Trusts and fluctuations in the price of gold, silver, palladium and platinum could materially adversely affect an investment in the Shares. Several factors may affect the price of gold, silver, palladium and platinum, including: A change in economic conditions, such as a recession, can adversely affect the price of gold, silver, palladium and platinum. Gold, silver, palladium and platinum are used in a wide range of industrial applications, and an economic downturn could have a negative impact on its demand and, consequently, its price and the price of the Shares; Investors' expectations with respect to the rate of inflation; Currency exchange rates; Interest rates; Investment and trading activities of hedge funds and commodity funds; and global or regional political, economic or financial events and situations. Should there be an increase in the level of hedge activity of bullion producing companies, it could cause a decline in world prices, adversely affecting the price of the Shares. Also, should the speculative community take a negative view towards bullion, it could cause a decline in world gold, silver, palladium and platinum prices, negatively impacting the price of the Shares. There is a risk that part or all of the Trust's gold, silver, palladium and platinum could be lost, damaged or stolen. Failure by the Custodian or Sub-Custodian to exercise due care in the safekeeping of the precious metal held by the Trusts could result in a loss to the Trusts.

The Trusts are new and have limited operating history. **Commodities generally are volatile and are not suitable for all investors.** Trusts focusing on a single commodity generally experience greater volatility. Since there is no limit on the amount of platinum and palladium that the Trust may acquire, the Trust, as it grows, may have an impact on the supply and demand of platinum and palladium. Please refer to the prospectus for complete information regarding all risks associated with the Trusts.

Shares in the Trusts are not FDIC insured, may lose value and have no bank guarantee.
